

SUCCESS REPORT

HMGP DR-4262

2016 Winter Snowstorms

Period of Performance: 03/06/2016 – 06/30/2024

Participants: City of Emporia, City of Hampton, City of Norfolk, City of Poquoson, Town of Wise, King George County, Pittsylvania County, Central Virginia Planning District Commission, Roanoke Valley-Alleghany Regional Commission, Southside Planning District Commission

Total Funding Awarded: \$10,199,051.00

Total Funded Projects: 14 Projects

PROGRAM IMPACT

The Hazard Mitigation Grant Program (HMGP) was established to provide funding to communities for measures that reduce the risk of future disaster-related losses following a presidentially declared disaster.

KEY ACHIEVEMENTS

Overview of Funded Projects

- Property Acquisition (23 Properties)
- Elevation Projects (7 Properties)
- Installation of Generators (10 Locations)
- Land Stabilization Project
- Hazard Mitigation Plan Updates

Community Impact Highlights

Pittsylvania County: Installed generators for 6 fire stations, enhancing emergency response capabilities during severe weather events.

City of Emporia: Acquired 8 residential properties in coordination with the Community Development Block Grant (CDBG) Program

SUCCESS STORY: INFRASTRUCTURE PROTECTIVE MEASURES

In King George County, the River Stabilization Project has effectively strengthened riverbanks to mitigate flood risks in the area. This critical initiative comes after the county faced significant erosion and flood-related challenges, protecting essential infrastructure and residential properties. By stabilizing the riverbanks, the project has significantly enhanced the community's resilience against future severe weather events.

LOOKING AHEAD

The success of the HMGP following the Winter Snowstorms of February 2016 has laid the groundwork for ongoing hazard mitigation efforts. Continued collaboration with local governments and communities is essential to enhance resilience against future disasters.
